Version Control/Git

Courses

Codeacademy:
HTML, CSS

freeCodeCamp:
HTML, CSS, JavaScript

Udemy:
React(current), JavaScript, Advance CSS/SASS

I am a front end developer that is passionate about coding and currently improving my skills. I am currently looking to find an entry level job where I can implement what I have learned and to improve and learn new skills.

Projects

Portfolio (GitHub)   August 2018

Tools Used: HTML5, CSS3/SASS, JavaScript/jQuery

Created and designed a responsive web site where I can show off projects I have created.

WordBeater (GitHub)   August 2018

Tools Used: HTML5, Bootstrap, JavaScript

Created a basic game where you type the word shown before the timer runs out. Keeps track of how many words have been correctly typed. (incomplete).

Outdoors (GitHub)   July 2018

Tools Used: HTML5 and CSS3

Created a website following an Udemy course using HTML and CSS.

Experience

Freelance   July 2018 - Present
Self-Employed
- Design, code, and modify web templates to meet specifications.
- Wrote well designed, testable and efficient code.
- Maintain, expand, and scale websites as needed.
- Create website layouts and user interface using standard HTML5, CSS3, and JavaScript practices.
- Designed and developed custom websites.

Envision   June 2016 - Aug. 2016
Engineering Intern
- Designed an enclosed fume hood for a vacuum form machine.
- Used laser cutter and 3D printer to make parts for an enclosed fume hood.
- Prototype and designed enclosed fume hood using SolidWorks.

Education

University of California, San Diego   Sept 2015 - June 2017
Major: Structural Engineering
Completed 120/145 credits
